Ellen has been CIA since day 1 so if this is a psyop she is the greatest comic to ever live.

Why do you guys hate her so much? What the fuck. She is friends with Bush, who is someone I respect greatly.

There is no evidence Ellen has done anything wrong. But there is something going on I can't deny this.

A Red-corner notice is an arrest warrant circulated by Interpol on behalf of the government of a particular country. It is a request from one country to another to arrest and deport the wanted individual. In the old days, we had 'wanted' posters. Nowadays, we have Red-corner notices.

Retard check. Answer these three simple yes or no questions:

1. Is adrenochrome oxidized epinephrine?
2. Does epinephrine oxidize in vivo?
3. Can you buy epinephrine without a prescription at nearly any drug store on the planet?

Avoiding/deflecting will be indication of intentional deceit.

On the adrenochrome issue:
-Black truffles vs synthetic truffle oil
-ciggarettes vs vaping
-Tea vs caffeine pills
-weed vs dronabinol

The natural product contain 100s of chemicals vs the synthetic equivalent. It The conglomerate of chemicals intricately interact to create a response. Ie., nicotine and harmaline alkaloids ciggarettes is different from just nicotine in vaping.

Conclusion: it is possible that 100s of chemicals are needed that are only created during an experience of death. This means it cannot be synthesized. Hoffer et al talked about psychotoxic neurochemicals. Endogenous DMT schizophrenia theory etc.
